

# Sociology Research Project

**Assignment #6:** Analyze Data, due **Tuesday, November 21<sup>st</sup>** by the end of class (5 points)

## TURNITIN

- Write two paragraphs (5-7 complete sentences, each) where you interpret your data to determine if it supports your hypotheses or not.
  - Be sure to discuss any personal preferences for particular outcomes or any other bias that might have occurred
    - Are your responses what you expected? Are there any responses in particular that are overwhelming/really stand out or some that were “underwhelming”?
  - In addition, discuss any areas where you could have furthered your research and any areas where you would have changed something if you had it to do all over again.
    - What are some difficulties you have had with collecting this data?
